Education Program

Sponsorship Opportunities

Corkscrew Swamp Sanctuary's classroom is a gentle, pristine wilderness. Our boardwalk meanders through pine flatwoods, open prairie and into the largest forest of ancient bald cypress in North America.

Insect Adventure 2nd Grade Curriculum Program

Capitalizing on children's inherent curiosity about residents of the micro-world, the Insect Adventure is designed to teach about insects while enabling students to look at their environment with a holistic view. Concepts such as habitat, adaptation and interdependence are reinforced throughout the program, and students have the opportunity to employ several steps in the scientific method.

Wild Florida Adventure 5th Grade Curriculum Program

There is no better place to study about watershed, fire, native habitats, integrated ecosystems and adaptation than Corkscrew. As junior naturalists, students engage in scientific scavenger hunts, species classification and nature writing. They conduct research projects on birds, plants, reptiles and mammals. Participants are introduced to Corkscrew's innovative natural wastewater treatment facility, the Living Machine.

Discovery Station Toolkits

Traveling libraries assist students with reading skills and individual research. Field supplies include scientific tools, skulls, skins, scat, tracks and a live gator from our swamp aquarium. Student field journals thread classroom lessons, boardwalk experiences and personal reflections.

Partner Educator Program

To expand field programs and student learning, staff of Corkscrew Sanctuary, Collier County Public Schools and Florida Gulf Coast University set a goal to train Elementary Teachers and University Professors to serve as outdoor educators. This program encourages participants to build new relationships with their students and expand personal horizons. Partner Educators receive benefits that allow them to visit the Sanctuary year round and participate in workshops to further their knowledge of natural resources and conservation issues.

Sponsorship Opportunities

Sponsors endorse a variety of activities within the Education Department at Corkscrew Swamp Sanctuary. Contributions support elementary students and teachers for Curriculum Programs which include field trip activities, Sanctuary admission and classroom instruction. Teachers and University Professors are provided professional development opportunities and year long support. Donations underwrite coordination of programs and workshops for Corkscrew staff, Volunteers and Partner Educators who present field lessons. Sponsors receive recognition in our year end report, student and teacher feedback and an invitation to join a field program.

Curriculum Program	Students	Program Fee	My Sponsorship
Insect Adventure 2nd Grade	50 students 2 classes	\$1500	\$
Insect Adventure 2nd Grade	150 students Entire school	\$5000	\$
Wild Florida Adventure 5th Grade	50 students 2 classes	\$1500	\$
Wild Florida Adventure 5th Grade	150 students Entire school	\$5000	\$
